### Kitchen needs convenient outlets

Lexington — Convenient outlet for electrical appliances are necessary in every kitchen. Since re-wiring is expensive, keeping in mind both present and future outlet needs, when building or remodeling, suggests Mrs. Gladys Lickert, UK Extension specialist in home management.

An outlet should be placed wherever you plan to use equipment, don't depend on extension cords. Wiring experts recommend a convenience outlet for every 4 feet of work surface in front with at least one outlet to serve each work surface, Mrs. Lickert says.

Outlets should also be planned for the refrigerator to the side for convenience in plugging in or out, for the planning center, and for use at the dining table. If you iron in the kitchen, or use an electric toaster, plan outlets for this equipment, she recommends.

You will want an outlet for a clock, which should be placed where it can be seen from all parts of the room.

Special purpose outlets are needed for the range ventilating fan, dishwasher, washer, dryer, and food waste disposal, according to Mrs. Lickert. Separate circuits should be provided for the food freezer and the room air conditioner.

Your electric company probably has an advisor who can help you with wiring system plans, she points out.

## Democrats win Jenkins council

A Democratic Party slate won four of six seats on the Jenkins City Council as a result of voting in Tuesday's general election. The Democrats had the backing of Jesse Bates, Jenkins police judge, who has been at odds with members of the present city council and Jenkins Mayor Bill Terrill. Two members of the opposition slate backed by Terrill and members of the present council, won council seats, but they will be in the minority. Bates' feud with the council stems from a disagreement over the salary he receives as police judge. Shortly after he took office, the council now in office attempted to reduce his salary from \$200 to \$100 a month. Bates filed suit, and the Court of Appeals ruled he was entitled to the \$200 a month which his predecessors had received. The Democratic slate filed during the primary and won the party nomination without opposition. The other group ran under the party label "Good Government." Carl Johnson, also a candidate, ran under "The Scales of Justice" label. Here are the unofficial returns:

## Cavaliers dominate but lose the game

By R. Percy Elkins

Pikeville's Mims raced 80 yards down the sideline with the opening kickoff and then scored again in the closing minutes to play on a blocked kick to deny Jenkins a much deserved victory.

The Cavaliers completely dominated the game after the runback until the blocked kick with only three minutes to go in the ball game, but managed to score only one touchdown.

Jenkins marched 60 yards in the first period to come within one point of the Panthers and seemed certain to overcome the lead and win, but the Green Team failed to capitalize on opportunities and thus were prime for the fourth quarter blocked punt and subsequent score which gave Pikeville its seventh win.

Jimmy Rowlette picked up 86 yards in 18 carries, one of which was a nice 41-yard run to set up the touchdown. A pass to Howard gave Jenkins a first down on the one-yard line of Pikeville where freshman quarterback Russ Adkins sneaked over for his first TD. Chapman had to run with the extra point attempt and failed to make it.

Banks picked up 18 yards for Jenkins. Adkins added seven.

and Wolfe got four. Tackles Clark and Elkins dominated line play with help from Howard, Dann and Mullins.

Cavaliers Journey To Corbin Thursday night the young green Jenkins team journeys to Corbin to try to hold the state's fifth ranked team and Billy Byrd to a close ball game. Even the most rabid fans are conceding 36 points.

Friday Jenkins will continue the trip to Lexington to watch the UK Kittens take on the Baby Vols from Tenn. Tommy Brush and Nick Dann are expected to start for the Kittens.

Basketball season will be inaugurated Friday night as Kingdom Come hosts the Dunham Blue Devils. Under new Coach "King" Smith and paced by Curtis Stone the Devils will attempt to extend their three-game streak over the Wildcats.

## OBITUARY

**OF HILLARD KINCE**  
Hillard Kince was born to the late Lee and Susan Craft Kince August 12, 1907, at Mayking, Ky., and died at his home in Neon, Ky., October 29, 1959, at the age of 52 years, 2 months and 8 days. It did not seem that during this short span of time he could have possibly entered so many hearts and established such a residence that each one feels they have lost a most precious friend.

Alma Hogg met Hillard, fell in love with him, and they were married January 1, 1933. Alma gave Hillard a son, Eddie, March 1, 1940, who preceded Hillard in death by 15 months.

You only had to know Hillard to realize his great love for his wife and son. Hillard also loved his church, of which he became a member in 1939. He served the Neon Methodist Church faithfully, serving in all capacities. At the time of his death he was charge lay leader, certified lay speaker, steward, trustee and Sunday School superintendent.

Hillard also loved his fellow man, his town and his country. This was easy to see by the way he worked continually to help those who came to him. He taught school in this area for 10 years, worked in the office of the Consolidation Coal Co. for about 10 years. After buying a hardware store and moving to Neon, he saw the need of good government. He entered politics and served the City of Neon as councilman and as mayor for about six years before he was elected to serve his people as representative in the state legislature for the

past two years.

Hillard has served as president of the Neon-Fleming Lions Club, chairman of the board of directors of Radio Station WNKY, on the board of directors of the Proposed Independent Junior College at Blackey, Ky., and has given his time and talents to several other organizations such as the Boy Scouts, P.T.A., band boosters and county development organizations.

After being in Hillard's presence but for a few minutes you would recognize his high moral principles and the true Christian gentleman that he was. His home and his business always portrayed the sterling character of a Christian.

Hillard's passing has left many a heart broken, especially his faithful wife, Alma, his half-sister, Mrs. Jim Kince, his half-brother, Jake of Detroit, his sisters, Effie Smith, Mrs. Betty Standifer, Manchester, Tenn.; Mrs. Rytter Lay, Ohio; brothers, Nelson, Manchester, Tenn.; Edgar, Charlie and Richard of Detroit, Gordon of Cincinnati, Ohio, and William, deceased.

This sweet tribute to Hillard was written by Dr. Sam W. Quillen of Neon. God bless him.

Dr. R. Orin Cornett, specialist for college and university organization in the Division of Higher Education of the Office of Education, Washington, D. C.  
Dr. Roscoe Giffin, professor of sociology at Berea College, the other member of the survey group is invited to participate in the work because of his wide knowledge of the problems in the Kentucky mountains.

Kentucky's Department of Education is represented by James Patton, director of Vocational Education for the State of Kentucky.

Over-all organizer of the survey project is Dr. Hunter E. Blakely, Richmond, Va., secretary of the Department of the Department of Higher Education, of the Board of Christian Education of the Presbyterian agency.

Dr. Blakely said of the survey committee: "These men will approach the situation at Blackey with an understanding of the Kentucky mountains and with a real interest in discovering for the church the wisest use of the Stuart Robinson property."

The survey group will gather at the Stuart Robinson campus Nov. 26-28. They will invite educators, churchmen and businessmen from the area, extending over half a dozen neighboring counties, to present their views and consolidate information.

At the end of this conference the survey board will give a preliminary report on their findings.  
"Devotion of their time to this project expresses the interest all of these men have in the situation at Blackey and their concern to be as helpful as possible in that area of Kentucky," Dr. Blakely said.

## Bull Hole . . .

there are nosy revenuers in the Bull Hole.

These several authorities bolster their lore with reports handed down to them by such nestors as the late J. Wash Adams, John N. Webb, Wes Banks, Tant Hogg and Melvin Cornett.

These learned men carried down the Ron Polly story of the stolen bull a long time ago. The meat of the butchered beast went down esophageal hatches. To effectively hide the evidence of cattle rustling from the law, the remnants of the bull—hair, hide, head and hoofs—were thrown into the Bull Hole and the crime to this day has not been solved.

Combs' overwhelming victory caused quite a bit of head-scratching among politicians who were trying to figure just how it happened.

While the general expectation had been that Combs would win by a comfortable margin, his record-making victory came as a surprise to almost everyone—probably even to Combs himself.

One thing that appears fairly obvious is that while the Democrats as a group were split wide in the primary, they weren't split to any significant degree in the fall election. Robison had based his hopes for victory on a belief that support of Harry Lee Waterfield in the May primary would vote against Combs in the fall. It just didn't happen that way.

## Jurisdiction of city cops is defined

A Whitesburg city policeman can make arrests anywhere in Letcher County.

County-wide authority for arrests is provided in state legislation, KRS 95.786, according to a notation from the office of Jo M. Ferguson, Attorney General.

The clarification was sent to John Doyle Burke, Whitesburg, who had raised certain questions in connection with the recent ordinance for annexation of certain territory. One question was whether city policemen could patrol the annexed territory.

The letter to Burke from the attorney general's office said: "This office cannot render an official opinion to a private citizen concerning the type of question presented. However, we will point out the fact that the city policemen of cities of the fifth class, under which the City of Whitesburg belongs, are authorized to make arrests anywhere in the county in which the city is located under the provisions of KRS 95.786."

## Three hurt in county this week

Three persons were wounded in separate incidents of violence in Letcher County this week.

Willard Collier, Neon, was shot in the arm with a shotgun by Kate Seals at the Seals home near Neon. Sheriff Johnny Fulton said the Seals woman told him Collier tried to break into her home and she shot him when he refused to leave. Fulton said two panels of the door to the house had been broken, and the woman said Collier had kicked them in. She was charged with reckless shooting.

Eugene Scott suffered a knife wound at Letcher Friday night. Sheriff Fulton said the wound was inflicted by Scott's brother-in-law, Fields, who was charged with malicious cutting.

Mrs. Lindsey Mullins, Raymond, was injured Tuesday night when her husband fired a shotgun blast at her, Fulton said. He said he did not know details of the incident. Mullins was jailed on a charge of shooting and wounding.

Fulton said he had heard of no incidents in connection with Tuesday's general election.

**HOLIDAZE AHEAD!** Thanksgiving's just a few weeks away, and Christmas closer than you think! Lots of festive plans being made at my house—how about yours? If the rush holiday season is going to keep you running, why not ease things a bit with a handy Extension phone where it would help most. In the kitchen, say, where you'll be doing double duty. Or in the bedroom where you can chat in peace. Extension phones come in pretty colors, and cost very little.

**SPEAKING OF DAZE!**—folks planning to build a new home can sure get into one! It's hard to think of ALL the things a new home should have for easy, modern living. If you're planning to build (or remodel) here's a helpful suggestion. Let us help you arrange for concealed telephone wiring. While your house is being built or remodeled the telephone wiring can be built into the walls, and you'll have extra outlets when you need to change your telephone location. Simply call us to learn more about this plan for convenience.

**WORKING ON THE RAILROAD.** Bell Laboratories has had many well-known "firsts." Here's an interesting one I discovered recently. The first public address system for use on a train—particularly for back platform "whistle stop" speeches—was developed by the Labs in 1923. Designed at the request of President Harding, it was used by him on his last trip across country, concluded by his sudden death on the West Coast. For "whistle stop" speeches or just calling around the corner, telephone company research is always coming up with something to get the word around faster, easier!

By Joe Owens  
Asst. County Agricultural Agent  
This month 4-H clubs in Letcher County will reorganize. All boys and girls who want to join a 4-H club can do so by contacting your community leader or county agent.

If a community does not have a 4-H club now, but you boys

and girls want one, why not have some of your parents talk to your county agent?

Also, your 4-H clubs need project leaders for the 4-H clubs. Mothers who are interested in working with four or five girls in a sewing or cooking can do so by contacting your club leaders.
